Rules of the District:

1. To abide by all rules and regulations of the District as the same presently exist and as the same are from time to time amended.
2. The applicant is acknowledging that all of the facts and information contained in the application are true and correct; in the event that the District shall ascertain that any fact is incorrect in the future the District may terminate water service to said property.
3. To install and maintain a properly working pressure reducing valve. Failure to do so could result in the malfunction of water using appliances.
4. All materials used in the construction, modification, or repair of a use's water system shall be lead free. Failure to comply shall cause the District to refuse or discontinue water service.
5. **Cross-connections in the water system are prohibited. If your service absolutely requires a cross-connection, it may be installed, provided that it is equipped with an approved backflow prevention device. This device is required to be tested annually from the date it was installed. A copy of the test report needs to be sent to Public Water Supply District #2 to be put on file. Failure to do this will result in discontinuance of your water service.**
6. To pay for all water delivered when payment is due.
7. There shall be only one (1) family or business per meter.
8. No interest will be paid on your security deposit and in no case will a refund from the deposit be made of less than \$5.00.
9. The security deposit will be refunded when service has been discontinued and all bills thereof are paid in full. The refund will be in the form of check and issued after the Board of Directors monthly meeting following your final reading.
10. No collection will be made at your door.
11. If the service is terminated for non-payment of water bills, or any other infractions of the District's rules, regulations, or policies, then a charge as defined in the Rules and Regulations shall have to be paid before restoration of service.
12. There is a charge for a meter test requested by the applicant, the charge and refund being as called for in the Rules and Regulations.
13. In the case where a mobile home water user neglected to protect the pipes with a heat tape and the water meter freezes, the customer shall be subject to a service call charge as defined in the Rules and Regulations.
14. To make no physical connection between any private water system and the District's water system.
15. To permit and allow entry upon the user's premises during all reasonable hours for the purpose of meter readings, necessary water sampling or testing, and for reasonable inspections, maintenance and repair of the District's water system.
16. Private Wells and cisterns shall be made inoperable.
17. Meters shall be set in an accessible place. In no case will anything be placed over the meter to restrict accessibility to the meter.
18. Water will be terminated for any misrepresentation or fraud that is committed in this application.
19. If customer's water is disconnected for non-payment, and is reconnected by customer without the knowledge of the District, a \$750.00 tampering fee will be charged to the customer's account and all fees will have to be paid in full before water service is restored.

No liability of any sort attaches to the District's failure to furnish the user uninterrupted water service.

The District reserves the right to discontinue water service without further notice if rules, regulations, or policies have not been followed.
